SUMMARY

I am an Animator and Web Developer with over 5 years of experience in website design and systems administration. I combine technical proficiency with creative vision and am skilled in 3D animation, modeling, compositing, and motion graphics.

Known for my problem-solving abilities, adaptability, and continuous learning, I excel in dynamic environments. My disciplined, results-oriented approach ensures successful project execution, while my solid relationships and quick learning allow me to execute complex instructions efficiently.

SKILLS

Animation & 3D Modeling: Storyboard Pro, Harmony, Maya, Blender

EXPERIENCE

Prototype 3D Concept Designer

Your Site Coach Inc.

📅 04/2024 - 04/2024   📍 Brampton, ON

Co-op

- Designed and developed detailed 3D parcel building models for integration into a metaverse environment, ensuring high-quality textures, accurate proportions, and interactive elements.
- Utilized the Google Maps API to accurately recreate a 3D model of Clifton Hill Street in Niagara City, incorporating real-world data to enhance realism and detail in the virtual representation.

Web Developer

Constructora Grupo ADIN

📅 10/2019 - 03/2023   📍 Cartagena, Colombia

- Designed, developed, and maintained responsive and user-friendly websites for all subsidiaries of the ADIN Group, ensuring seamless performance across various devices and browsers.
- Implemented and managed SEO strategies to improve website visibility and organic search rankings, driving increased site traffic.
- Monitored website performance, troubleshot issues, and enhanced site speed and functionality for an enhanced user experience.
- Managed and improved social media platforms for the ADIN Group, increasing online presence and driving user interaction, leading to a 50% growth in social media followers.

Systems Administrator

Asesorar Inmobiliaria de Colombia

📅 11/2014 - 02/2019   📍 Cartagena, Colombia

- Managed and streamlined social media platforms, creating and scheduling content to enhance the organization's online presence and engagement.
- Utilized CRM systems SIMI and WASI to manage and analyze real estate data, improving data accuracy by 20% and streamlining workflows.
- Performed preventive software and hardware maintenance to ensure optimal performance, reliability, and security of all systems and devices.
- Provided comprehensive training to staff on correctly using internal systems and devices, increasing productivity by 25% and promoting efficient workflows.
